(Date)

Texas State Florists' Association,

As agriscience teacher, at (High School), it is an honor to recommend (Student's Name) for the Level 2 Floral Certification. I have had the opportunity to get to know (Student's Name) in the classroom and as her FFA Advisor.

(Student's Name) has participated in many floral activities including: volunteering at the 2018 floral certification in Pittsburg, volunteering at the Texas Showcase in Lubbock and helping setup the 2018 senior banquet by making arrangements and decorating the tables. (Student's Name) has also completed the Level 1 Certification and I can attest to the his/her skill designing the Asymmetrical Arrangement, the Corsage, and the Dozen Stem Vase Arrangement.

After volunteering at the Texas Showcase, (Student's Name) had the opportunity to work during Valentine's Day for (Flower Shop). On the job she learned a lot about processing and making vase arrangements.

If you have any questions, please call.

Sincerely,  
Teacher's Name  
Flora ITeacher
